

MATERIAL SAFETY DATA SHEET

Section I – Product and Company Identification

The Earth Pigments Company
P.O. Box 1172
Cortaro, AZ 85652
Telephone: (520) 682-8928
www.earthpigments.com

Product Names: ROMAN BEESWAX POLISH, ROMAN BEESWAX SEALER, ROMAN GOLD EFFECTS WAX, ROMAN SILVER PEARL EFFECTS WAX.

Product Description: A white, neutral beeswax blend with distilled mineral oil formulated as a paste or liquid wax. Polish and Sealer are FDA approved for food safe contact. Effects waxes are prepared with non-toxic mica powders, but are not FDA approved for food safe contact and are not intended for cosmetic use.

Base Appearance: White Translucent paste or liquid
Odor: Low odor of beeswax
VOC Rating: Zero VOC

Product Use: For use with or without pigmentation on wood, flat paint, plasters and absorbent surfaces. Creates a clear, hard non-toxic wax finish. Not for use on floors.

Section II – Health and Flammability Rating HMIS Code

This product is identified with the following Health and Flammability Ratings. Combustibility, skin contact ratings, and precautions for safe handling apply for the wet paste and liquid wax only and do not apply to the dried finish.

Wet Paste or Liquid Wax

Health 1
Flammability 1
Reactivity 0

Identification of rated substance: Distilled Mineral Oil Light

Section III - Identification of Dangers

Flammability- Product is combustible in its wet paste or liquid form.

Skin Contact- Product may cause skin irritation or dermatitis in sensitive individuals in wet paste or liquid form.

Section IV – Precautions for safe use and handling and storage of wax paste

Ventilation – General ventilation is sufficient for use with this product

Skin Protection – Gloves to protect skin during application

Respiratory Protection – Unnecessary under general ventilation

Handling – Wash hands with soap and water if skin contact occurs. Wash clothing that has been in contact prior to wearing.

Storage – Keep out of reach of children. Container must be closed tightly to prevent evaporation and hardening. Protect from freezing. Do not store near heat, sparks or flame. Allow residue of product on application rags or tools to dry prior to disposal. Dispose of excess in designated landfill.

Section V – Emergency First Aid Procedures

Inhalation – If overcome, remove to fresh air.

Eye Contact – Flush with large amounts of water. Check with an ophthalmologist if irritation occurs.

Skin Contact – If irritation occurs, flush with water for 15 minutes. Seek medical attention if dermatitis occurs.

Ingestion – In case of insignificant amount (less than a mouthful) rinse with water and refer to a doctor. In case of ingestion of large amount, do not induce vomiting. Seek medical supervision and present MSDS.

Section VI – Fire Fighting Measures

Suitable extinguishing media include carbon dioxide, chemical powders, extinguishing foams, and other gases.

Information given herein is offered in good faith and as accurate, but without guarantee. Misuse or mishandling of the product is beyond the control of the manufacturer and liability will not be assumed.

The information contained in this document relate to these products specifically. They are not valid for these products if they are used in combination with other unintended materials or in another process. It is the responsibility of the user to use the product for its intended purpose.
